

## Vision:CHC Management Reports

**Vision:CHC Management Reports fully address the unique reporting and information needs of community health centers, especially Federally Qualified Health Centers (FQHCs) and Rural Health Centers.**

One of a CHC's most important assets is its data. *Vision:CHC* captures important data during patient registration, scheduling, clinical documentation, and billing. An outstanding value of *Vision:CHC* is its ability to access this data in a form that can be used for decision-making, grant applications, and mandated reporting.

*Vision:CHC* includes a reporting tool that is easy to use and can access all of *Vision:CHC's* data elements. Among the key features of *Vision:CHC* Reporting are:

- A Report catalog with more than 200 reports designed exclusively for CHCs.
- A full set of UDS reports that are updated annually and are ready to run.
- Aggregate reports that are specifically designed for Meaningful Use, Health Disparities Collaborative Registries, and Health Information Exchanges.
- An end-user report generator designed for grant and ad hoc report writing.
- All reports reside on the server for easy access and retrieval.
- All data are ODBC-compliant and can be exported in many standard formats
